Bemidji, MN (April 24, 2023) - The Northern Minnesota Robotics Conference (NMRC) in conjunction with the Minnesota Robotics Coaches Association (MRCA) is happy to announce the regional HS students that have been named to the 2023 MN State All-Academic Team.

The MN State HS All-Academic Robotics Team program recognizes the academic excellence (*based on GPA*) of High School students who participate in the Minnesota State High School League (MSHSL) Robotics programs. Students are nominated by coaches who are members of the MRCA. To earn All-Academic State Honors, a student must possess a cumulative GPA of 3.8 or higher (based on a 4.0 scale) for this current year. This honor is open to students in grade levels 10-12. In addition to the GPA requirement a student must be an “important contributor to the team” and have no MSHSL violations in the current or previous year. Students are able to receive this award on an annual basis if so nominated.

The conference consists of 31 teams, 28 of which are based in Minnesota and are eligible for this award. To learn more about the NMRC or our member teams you can visit our website www.NMRConference.org under the “Members” tab. To learn more about the MRCA including the various recognition programs please visit www.mshsca.org/robotics.

We at the NMRC and the MRCA are delighted to celebrate the great academic accomplishments that these students have made. The NMRC is proud to have 73 students from 15 different teams represented on this Fourth Annual All-State Academic Team. Please join us in congratulating each and every one of them.
